## The Best Poultry in New England

- Air-chilled
- All Natural
- Vegetarian Fed
- Halal Guaranteed
- Antibiotic Free
- Custom cut in Maine

Our chicken is air-chilled which means no added water. When chicken is chilled in this way they retain the natural oils and flavors usually washed out by the water chilling process.

## Chicken with a Purpose

Our product is a reflection of the community of people who produce it. We all may speak different languages, come from all across the world, but our goal is the same. To smile at each other, spread kindness, and feed our families.

Our chickens are raised on small family farms in Pennsylvania. This decision was the result of an extensive sustainability analysis conducted in collaboration with the University of Maine, considering the carbon footprint of growing here vs in a warmer climate, among other factors. We have relationships with the families that raise our chickens.

# La Panciata

Traditional Italian Bakers

**Biscotti** The baking of biscotti goes back to the 14th century, so there was no question La Panciata wouldn't honor the care, passion, and love that goes into creating biscotti in the traditional fashion, aka, "the right way." The result is a piece of Tuscan heaven that stays crispy, even when you dunk it.

**Cookies** We make our cookies with simple ingredients of the highest quality. Not only do high-quality ingredients taste great, they create hearty cookies, too: ours weigh in at about two ounces each. Now that's a serious cookie, just the way our family likes them.

# **SUSTAINABLE FRESH PASTA VERMONT GROWN & ITALIAN HERITAGE TRENCHERS FARMHOUSE**

## **A VALUE ADDED PRODUCER**

*We are a husband-and-wife team, Giacomo & Jennifer Vascotto! After meeting and falling in love in Italy, we spent years in top restaurants around the globe. Our passion for food developed into a desire to learn about all aspects of what we call “farm to pasta.” We opened our family-owned and operated farm in 2019 and began creating our handcrafted pastas and sauces, blending sustainable agriculture, Italian traditions and farm-raised Vermont ingredients. Rooted in Italian “al dente” traditions, we make our pastas with a signature blend of Vermont grown, organic wheat. Our eggs come from our flock of pasture raised, heritage breed hens that have been fed certified organic, soy-free feed.*

*Even though the majority of the vegetables used in our kitchen are grown on our own farm, we simply can’t grow it all! We are committed to using organically grown and locally sourced products. For international products we work with producers who, like us, are part of the Slow Food movement.*
